## PROGRAMMER ANALYST JR

### WORKING EXPERIENCE

#### WEB FULLSTACK DEVELOPER FREELANCE

Freelance | Sep 2020 - Mayo 2022

1. Development of projects using mainly HTML, CSS, Bootstrap, PHP, Javascript and Mysql (Professional websites, portfolios, whatsapp stores, among others).
2. Requirements gathering and development on demand.
3. API Rest consumption and development.
4. Responsive design, nice, intuitive and simple.
5. Use of frameworks such as Angular and Ruby on Rails.

#### SALES EXECUTIVE

Aegis global S.A. | Nov 2018 - Sep 2022

1. Responsible for converting telephone inquiries from the movistar hogar website into sales.
2. Compliance with quality standards and objectives established by movistar hogar.

#### SALES EXECUTIVE

Baco Club | Sep 2017 - Oct 2018

1. In charge of prospecting new members for the wine club.
2. Responsible for compiling a record of relevant telephone numbers for cold sales.
3. Application of sales techniques and compliance with quality standards and objectives.

### IT EDUCATION

#### INSTITUTO TECNICO SUPERIOR INMACULADA CONCEPCIÓN

Systems Analyst Technician | Feb de 2021

I did projects in Python, Java, PHP, HTML, CSS and MySQL.  
I added an analytical and more professional look with presentations of UML, DER diagrams.  
I deepened in object oriented programming conceptually and in practice (polymorphism, encapsulation, composition, interfaces).

#### DEPC SUITE

Fullstack PHP Web Development | 2020

I learned web layout and libraries to facilitate it (HTML, CSS, Bootstrap).  
I learned the basics of programming with PHP.  
I learned how to create a database and its tables with MySQL.  
I learned how to develop a complete web application.
